The lost lands once teeming with life, now where silent cry for a new beginning. A world where humans who serve the All-father have ruled for ages, and where the mysterious and powerful Dragon Kits spread out. Vast prairies stretch into the distance, where the great lumbering beasts, Dragons, take flight and attack the unsuspecting. Towns and villages dot the land with ruins and tragedy. On the scattered outskirts of the Dragon's Lands, a civilization that exiles its citizens to the Lunar Pact has existed for generations, leaving a metal and stone prison for the Lunar. When the Moon is full, the great gales of Wind rush through the Lands Between as it thunders down across the broad plains, and the yearning for freedom and dreams seem to rise from the depths of the earth. -

The Mendelian traits associated with the MNS multiple congenital anomaly/mental retardation syndrome (MNS-MR) include features of the midface and the limbs. Mutations in IGF1R cause an autosomal dominant syndrome of growth retardation, hyperphagia, macrocephaly, and hypogonadism. We have studied two different IGF1R mutations-a nonsense mutation (c.1878C>A)

and a missense mutation (c.65G>A)-using embryologic and teratologic analyses of embryonic mouse limbs. Both mutations cause limb defects that correlate with the timing of IGF1R expression, although the
