Alongside the new motion capture technology, FIFA 22 is the first FIFA title to use a “beyond the ball” camera perspective and accompanying AI system to enable the ball not only to assess the tactical situation, but also to react intelligently to the player’s body language and create goalscoring opportunities. FIFA Matchday A dedicated “Matchday” mode allows you to prepare and watch the following game right from your PC or console. FIFA Matchday also features exclusive match-day content, including a look inside the stadium, a behind the scenes video, and a pre-game show that uses real-life interactions with the matchday officials, players and fans. Match-Makers & Equipment Capabilities A wide range of match-maker roles – including goalkeeper, centre-back, defensive midfielder, attacker, wings, and super-sub – allow you to customize your starting XI to build the exact team you want. With over 1.5 million unique combinations, you can personalize more than 15 different tactics, formations, and player types for every role and situation during the match. It’s all made possible by a new positional 3D Maneuvering System, which is

---

made possible by the latest advances in artificial intelligence and physics simulation. FIFA Touch An all-new combination of FIFA 22's physical football simulation, PLAYER ANALYST, and the all-new FIFA Touch controls, makes it the most dynamic, physics-based football simulation ever. FIFA Touch is now more responsive and intuitive than ever before, delivering real-time feedback on your player's technique and reaction to situations that would normally be unpredictable. New control schemes deliver even more control and deliver the ball a players preferred position at the instant they receive it, regardless of who has the ball. A range of customization options on FIFA Touch make it possible for players to change the 3D Maneuvering System dynamically, instantly adjusting the dynamics of any moves. FIFA 22 includes a range of Custom New Features, which make it possible to experience the authentic feeling and playstyles of each and every FIFA matchday. These include: Team Leader : Offering a new way to take control of your team at any time during the match. : Offering a new way to take control of your team

### **Features Key:**

- Live for the first time ever, on all platforms, live gameplay of a real-life two-match FUT demo, which features an elite tier of clubs, the likes of Chelsea, Dortmund, Gremio and Schalke.
- HOTSpot for the first time in any FIFA game, allowing players to perform striking techniques and close-range moves, and create goals and assist assists without relying on set-piece routines.
- Real-time action creation with Make-Your-Own-Player, unprecedented quantities of customization for players and kits.
- Face shields, post-processing and animated texture filtering now on console and PC for the first time.
- Sub-game modes such as Training and Friendlies provide new ways for you to progress and improve your skills using FIFA gameplay.
- Personal Audio, voice behind the game's commentary and crowds allowing you to hear every friendly shout, roar, and catch-phrase used as you play.

### **Fifa 22 (Latest)**

The FIFA franchise is one of the biggest in the world and delivers footballers, teams, stadiums and more for every football fan to enjoy. FIFA is the cornerstone of EA SPORTS FIFA series, the

---

world's top-selling sports franchise. What's New in FIFA 22? FIFA 22 introduces key new gameplay features and game modes, from competitive to casual, as well as the most authentically-recreated real-world gameplay ever in a video game. Experience the intensity of the authentic passing, ball-control, and tackling of the pros. Feel the impact of powerful shots and new set pieces. And master new controls that balance passing accuracy and player decision-making, all for an unmatched, realistic experience that feels like being on the pitch. EA SPORTS FIFA 22 introduces key new gameplay features and game modes, from competitive to casual, as well as the most authentically-recreated real-world gameplay ever in a video game. New gameplay innovations:

- A new Attacking Intelligence system (attacking intelligence is how footballers and teams play the game) rewards players for intelligent, balanced decision-making as they choose which runs to make and when to pull the trigger on crossers and set pieces.
- New Rounding and Finishing Control lets you drive the action with beautiful, authentic touch and chip shots. Feel the impact as you strike the ball with perfect power and precision.
- New Fouls give you even more control over the flow of the game. Set-piece free kicks are directed when you choose and sent out of play with pinpoint accuracy.

New controls:

- New Passing Intelligence moves players' controllers around the pitch to create a more natural, realistic ball flight.
- Referees can now change direction with the ball with "Smart" Pause while they're tackling.
- The ball now slows down as you hit the ground.
- Hold-and-release controls let you apply the perfect amount of force and pressure on the ball.

New game modes:

- FUT Champions: In this all-new mode, you'll compete in an epic, expanded FUT Champions World Tour.
- FUT Pro Clubs: FUT Pro Clubs delivers the best experience in club football with upgraded transfer & manager controls.
- Ultimate Team Championships: Gather the greatest collection of players in the world in EA SPORTS FIFA Ultimate Team Championships

## **What's new:**

- **VIRTUAL PUREPLAY:** A new motion capture engine makes you feel every touch, tackle and rebound like never before. Use magic techniques to build the best team in FIFA 22. Even though we've gone virtual pure play, we've also designed a structure that allows for real-life content, much like FIFA 11 introduced real-life kicks and tumbles.
- **1-ON-1 REPLAYS:** Take control of an exact moment to reset the moment and play from new positions. Use the new 1-on-1 Replay feature to experience more moments replayed in 1-on-1 mode.

## **FIFA Ultimate Team returns**

- Now you can draft any player from any era with our FUT Drafts every month.
- The metagame is back. Play smart and draft smart to build the squad that works for you. FUT Drafts offer Instant Action and seasonal draft in a single feature, draft by role, or draft by position—all without the need for a draft tab.
- We've redesigned team and player icons for a cleaner overview of your squad. You now view your squad and transfers together, with a unified player pane and non-offensive logos for a clearer view.
- We've enhanced the Team Overview to show your stats, as well as your Ratings and Classifications.

## **Free Download Fifa 22 For Windows**

The most realistic soccer experience in video games. FIFA's innovations in real-world gameplay deliver accuracy, challenge and authenticity that put fans right in the center of the action, so they can feel the impact of every shot, tackle and cut. Broadcast levels of detail Match-day players feel more realistic and animate in a broader array of realistic motions. In FIFA 18, we used an extensive database of players in real-world matches in the U.S. and around the world. But in FIFA 22, we scanned millions of real-world matches and have built a new database that includes over one million player actions. It's the most comprehensive and detailed database of players ever created in a game. Refined physics and ball movement Interpreted and applied player data from millions of real-world matches. A powerful physics engine lets the ball move, spin and rebound as if it were reality. And no game is more connected to real-world football than FIFA, so FIFA 22 introduces the most authentic ball-in-play physics in a soccer game ever. Greater control in all areas of the pitch Interprets and applies player data from millions of real-world matches. An advanced ball-tracking system lets players manipulate the ball in all areas of the pitch. Players can push, pass, chip, shoot, head and even shoot at goal from the back, and the ball reacts more realistically for all situations, from 4 v 4 to 5v 5. Possession-driven game Possessions are key to winning matches. FIFA 22 enables you to control play with your opponent's style of play - whether that's attacking or counter-attacking. Games are won in transition, when players change the momentum of a game. And in a game of possession, your role is to control the ball and clear it out. Realistic crowds, new camera views A new crowd technology simulates thousands of fans through crowd movements. In FIFA 22, you can see more of the crowd, from multiple angles, while the new Autonomous Decision AI system uses crowd movements to help the CPU know what to do, making games more unpredictable. Better camera views. For the first time, our team used historical camera data from every World Cup to help the new

---

camera system improve shots, saves, headers and goals. And for those playing on PC, real-time performance improvements will help bring the game to even higher levels of accuracy.
